

Status Summary -

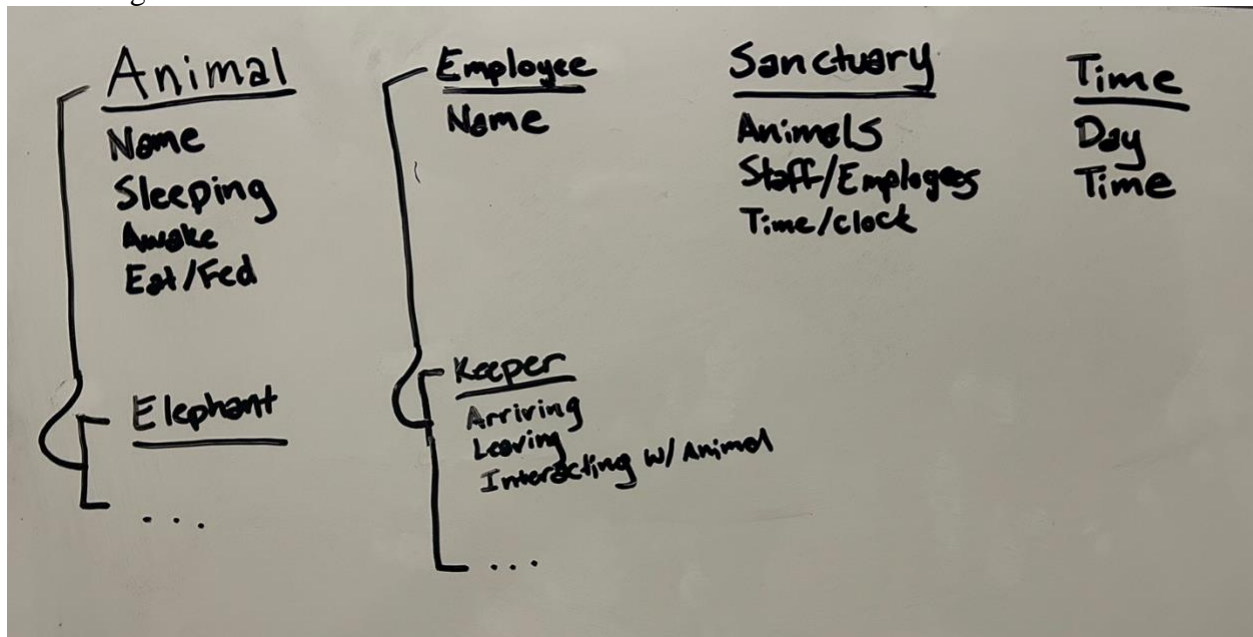

Team member(s) - Tyler Learned

Work Done – Have done most of the superclasses and made all the main subclasses.

Changes or Issues Encountered – I added a time class so that time and day can be implemented for opening and closing sort of events.

Patterns – So far there is an observer pattern with the time and keeper.

Class Diagram -

Plan -

I have some more animals to add files for. I also have to work on some of the staff and visitor files and make sure they all run well together. Overall I don't feel like there is too much new stuff to do for the animals and I have a good idea of what is left for the staff files so I don't see it taking much time.
